## Minutes of the Meeting held on 19 November 2018 at Edwardstone Village Hall

**Present:** Councillors P Baker (Chair), S Norman, D Williams, C Britcher, P Clarke

**1. Apologies for Absence** - Councillors M Childs and S Flack – approved.

**2. Councillors' Declarations of Interest on any Item on the Agenda**

Councillor Britcher declared an interest in item 8.1.

**3. Reports from Suffolk County Council and Babergh District Council**

**3.1** Councillor James Finch reported the following:

A review had taken place of the Home First project which looks at providing support services to help people remain in their homes rather than move into care. This was more cost effective and beneficial to the client and was achieved through a multi-agency approach. The project had received an outstanding rating by the Quality Care Commission.

SCC was looking to hear from family carers who received no agency support to identify what works well and any gaps in the service provided. A discussion followed on how best to publicise the available services.

SCC was being challenged to find savings of £25,000,000 in its budget for the coming year. The main priorities for the Council were Adult Care and Children's Services

**3.2** Councillor Bryn Hurren reported the following:

The regeneration of the former BDC offices in Hadleigh had received approval with 58 new homes to be built. The listed part of the building was to remain. A customer service was being provided in Hadleigh library to assist those residents unable to get to Ipswich.

There had been problems with the Green Waste Collection service locally due to sickness issues and the use of new lorries which some drivers were not qualified to operate. BDC was taking steps to rectify the problems.

The Council had reported high levels of sickness due to stress since the offices were centralised in Ipswich.

Goodlands Farm housing appeal had been dismissed due to highway safety concerns and the impact a listed building.

Rumours that the local CAB would no longer receive funding from BDC were 'unsubstantiated'.

**4. Questions from Members of the Public**

A local resident raised concerns over SCC proposals to make changes to local school transport by introducing extra buses serving more locations which he felt would lead to higher levels of pollution, not be cost effective, disrupt families and 'made no sense' from any perspective. Councillor Finch(SCC) said that he was campaigning on behalf of residents and would welcome any further input from residents and the Parish Council to take back to SCC. After a long discussion it was agreed that EPC would write to SCC on behalf of residents. A copy of the letter is attached to these minutes as Appendix A.

**Action – D Williams**

**5. Minutes of the Meeting held on 17 September 2018**

The minutes of the meeting held on 17 September 2018 were approved and signed. Proposed P Baker and seconded by S Norman.

**6. Neighbourhood Plan**

Councillor Williams reported back from the Boxford Neighbourhood Plan meeting on 25 September. He said that a plan would give control over future planning but would involve a lot of work and needed to be very specific and any plan would need to be passed by a local referendum and inspectors. The Committee agreed to look more closely into what would need to be done. In view of the amount of work involved and knowledge required it was suggested that an advert be placed in Box River News looking for someone to help produce the plan. It was also suggested that a Village

Meeting be held in Spring 2019 at which a representative from BDC could speak to EPC and residents.

Councillors Gordon Jones and James Finch  
Essex County Council

3 December 2018

Dear Councillors Jones and Finch,

### Changes to School Transport Provision

As expressed to Councillor Finch at the most recent meeting of Edwardstone Parish Council (“Edwardstone PC”), Edwardstone Parish Council has significant concerns about the proposed changes to school transport provision and the impact they will have on those we represent. Whilst we appreciate that Suffolk County Council finds itself in financial difficulties, we are concerned that the proposed changes which will:

- have the potential to cause significant disruption to families;
- inevitably have an adverse environmental impact; and
- significantly worsen congestion in already congested areas.

Whilst bringing these adverse effects, we are not convinced these changes will achieve material (or potentially any) financial savings.

Edwardstone lies almost equidistant (depending on how one measures it) between Thomas Gainsborough School (“TGS”), Ormiston Sudbury Academy (“OSA”) and Hadleigh High School (“HHS”). However, Edwardstone children (most likely attending Boxford CEVC Primary School (“Boxford School”)) have, for many years now, primarily moved on to TGS. The impact of the proposed changes is that, based on the somewhat dubious measurement methods employed in making a determination, free school transport to TGS will no longer be available to all Edwardstone residents, with some residents entitled to transport only to OSA or HHS. This raises several obvious problems:

- OSA and HHS do not recognise Boxford School as a “feeder” school (unlike TGS) and have done no transition work with Boxford School pupils.
- There is no guarantee that Boxford School pupils will be able to obtain a place at the school to which they have a free transport entitlement.
- Families with one (or more children) already at TGS but with a child moving up from Boxford School face possible division.
- It would appear that rather than one route, three buses will now be necessary to service a small village.

These problems are compounded as we understand that the proposed travel services seem to be badly organised and potentially impractical (as explained to Councillor Finch at our recent meeting).

Many parents, faced with an illogical, inadequate and badly planned free school transport system, will choose (or, rather, be compelled) to drive their children to school. This will cause disruption to the lives of those families but also significant additional congestion and pollution – the traffic situation in Sudbury in particular is already untenable. Note that we understand that TGS, which will likely face the greatest increase in traffic, struggles with current volumes of drop-offs and collections.

In light of the above concerns we ask that you take immediate steps to ensure the competent and sensitive implementation of any changes to school transport provision. In particular, please ensure the following:

- The educational choices of parents are respected.
- Family disruption (the separation of siblings, in particular) is minimised.
- Additional traffic congestion generated by additional bus and car journeys is minimised
- The environmental impact of additional bus and car journeys is minimised.
- The cost of the provision of additional, unnecessary, bus services, is avoided.

It is submitted that all of the above may in fact be best achieved in our area (and possibly others) by simply leaving the current transport provision unchanged.

If you require further information on any of the points raised above we would be glad to arrange contact with those directly affected.

Your sincerely

*Richard Jones*
